(f) On 30 April 1967 Battery A, 6th Battalion, 32nd Artillery fired a Will Adjust mission resulting in 1 house destroyed and 1000 lbs (estimate) of rice scattered.

(g) Extensive harassing and interdiction fires were planned and fired during this period. Total missions fired by type:

Harassing and Interdiction	568
Will Adjust	7
Registrations	7
Destruction	1
TOTAL ROUNDS EXPENDED	2,978

(h) Results:

(1) Friendly Losses: None

(2) Enemy Losses: 1 VC killed in action (body count)
 5 VC killed in action (estimate)
 3 houses destroyed
 2000 lbs (estimate) of rice scattered.

(9) Defense of Nha Trang Complex:

One platoon (two 105mm howitzers) has been positioned in Nha Trang with the mission of defense of the Nha Trang complex. At the start of the reporting period this platoon was detached from Battery C, 5th Battalion, 27th Artillery and was replaced by the First Platoon of Battery B, 5th Battalion, 27th Artillery on 19 February 1967. On 5 April 1967, the First Platoon of Battery C, 5th Battalion, 27th Artillery relieved the platoon from Battery B, 5th Battalion, 27th Artillery of this mission. The platoon is currently attached to the 5th Special Forces Group. The platoon requirement for Nha Trang is rotated monthly among the firing batteries of this battalion.

b. Training: During the reporting period this battalion instituted and continued to conduct many programs oriented to increase the efficiency of this command and enhance operational capabilities. The battalion instituted a mobile training team (FEB and Firing Battery) to give refresher training to all units. This team also spent eight days at the Dong Tre CIDG camp training CIDG personnel in fire direction and firing battery procedures.

4. (U) Civil Affairs: The civic action program within the battalion continues to give medical aid to the Dong Toc refugee village. The battalion surgeon, prior to his departure on 16 April 1967, treated 438 people for various ailments within the reporting period.

5. (U) Personnel

a. During the reporting period this unit continually received personnel replacements to offset programmed and unprogrammed losses. As a result, only one MOS (13B40) remains critical. Currently, the battalion is short 15 personnel with MOS 13B40. All shortages are in the grade E6 and it is this lack of experience which causes this MOS to be considered critical.

b. This unit has an immediate and pressing need for a personnel warrant officer. Since 26 February 1967, this battalion has been without a personnel warrant in spite of numerous efforts to secure a replacement. In April, an informal notice was received from USARV G1 that implied that the next personnel warrant to arrive in country would be assigned to this unit. No relief from this problem appears imminent. In addition, a definite need exists for a Surgeon (O-3), Reconnaissance and Survey Officer (O-2) and a Signal Corps Officer (O-2).

c. The morale of the troops remains high.

SECTION II (C) COMMANDER'S OBSERVATIONS AND RECOMMENDATIONS

PART I

OBSERVATIONS (LESSONS LEARNED)

6. (C) Operations

a. ITEM: Language problem for US Artillery supporting non-English speaking Allied Forces.

DISCUSSION: To provide timely and accurate fire on the target requires the Fire Direction Center to understand the observer's transmission with no possibility of error. The experience of this battalion has been, even with English speaking Allies (Korean and Vietnamese), a great deal of misinterpretation is encountered in the radio/telephone communications.

OBSERVATION: By exchanging liaison personnel between the US and the Allied FDC, this misinterpretation is eliminated. The Allied interpreter talks to his countrymen in their native language and then translates the mission to the US personnel at either the US or Allied FDC. This eye to eye contact eliminates mistakes.

b. ITEM: Communications over extended distances.

DISCUSSION: This battalion has repeatedly operated with a battalion front of from 150 to 180 KM. The successful exercise of command and control over this distance requires an efficient and direct communications system. The present command wide VHF system is inadequate for field units. Thus, the only system available is FM radio.

OBSERVATION: The utilization of AN/VRC 49's strategically placed at radio relay sights on high mountains will increase the rated range of the FM radios threefold. By using one AN/VRC 49 this battalion has been in constant radio contact with units over this 150KM front.

PART II (C)

RECOMMENDATIONS

ITEM: Base Camp Security.

DISCUSSION: The base camp complex of the Tuy Hoa Sub Area has three villages located along the coast adjacent to its perimeter. As a result, the village inhabitants must pass through the base camp perimeter when traveling to inland locations. To provide the villagers this access, lanes have been provided for them to traverse through the base camp complex. This has

resulted in dividing the base camp into three separate security areas. This greatly increases the total perimeter that must be manned and reduces the capability to provide immediate responsive support between units in the base camp utilizing interior lines of communication.

RECOMMENDATION: That villagos located on the beach adjacent to the Tuy Hoa Sub Area be relocated, thus allowing the Sub Area to have a contiguous perimeter.

HEADQUARTERS, 1 FIELD FORCE VIETNAM, APO 96350

26 MAY 1967

TO: Commanding General, United States Army Vietnam, APO 96307

1. (U) This headquarters has reviewed the contents of the Operational report for the quarterly period ending 30 April 1967, of the 5th Battalion, 27th Artillery with the following comments.

2. (U) Reference Section I, paragraph 5 - Personnel: Concur.

a. Currently, there is a command wide shortage of MOS 13B40 and USARV has indicated a monthly flow of approximately 20 for the entire command. Until such time as an adequate replacement flow can be accomplished, all units must train and promote, where possible, personnel in MOS 13A. This situation will be monitored to insure an equitable distribution of command assets.

b. The requirement for a personnel officer is recognized and USARV has attempted to fill this vacancy. A firm commitment was made by USARV 13 May 1967 to fill this position RFL 1 June 1967.

c. The medical officer programmed for assignment to this organization was hospitalized upon arrival in-country. The battalion was notified that Captain Smoko, who is scheduled to arrive 24 May 1967, will be diverted to the organization upon arrival in-country.

d. Survey and signal officers are short command wide. In this regard, a survey of all Artillery battalions revealed that this organization has a more even distribution of officers than any battalion within this command.

3. (C) Reference Section II, Part II - RECOMMENDATIONS: Concur. Movement of Phu Hiep (3) and Phu Hiep (2) was considered by this headquarters at the request of Tuy Hoa Sub-Area Command and USARV. After a thorough review of all considerations and coordination with Tuy Hoa Sub-Area Command, it was recommended that Phu Hiep (3) be moved. The completed action was forwarded to the Commanding Officer, USASo, C B 9 April 1967 for necessary action.

APO 96558

1. This headquarters has reviewed the Operational Report-Lessons Learned for the period ending 30 April 1967 from Headquarters, 5th Battalion, 27th Artillery, as indorsed.

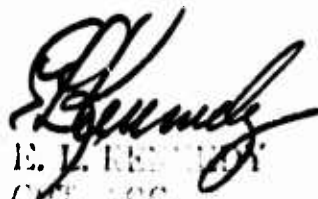

2. Pertinent comments follow:

a. Reference item concerning personnel shortages, paragraph 5a, page 13, and paragraph 2a, 2d indorsement: Concur. The solution outlined by the Commanding General I Field Force Vietnam represents the only practical alternative pending an adequate flow of MOS 13B40, E6 replacements. Resources are being diverted on a pro-rata basis upon arrival in this command.

b. Reference item concerning immediate need for a personnel warrant officer, surgeon, reconnaissance and survey officer and a signal corps officer, paragraph 5b, page 13: A Unit Personnel Technician was assigned to the battalion on 7 June 1967, a surgeon was assigned on 28 May 1967, a signal corps lieutenant will be assigned prior to 30 June 1967, and a reconnaissance and survey officer is on requisition with a requested arrival date of 1 August 1967.

c. Reference item concerning the relocation of villages and base camp security, page 15, and paragraph 3, 2d indorsement: MACV Directive 405-1 and USAFV and 1st Logistical Command Regulation 405-1 delineates policies and procedures for the acquisition of real estate and the decision to relocate the village(s), will be based on operational requirements of the tenant units. This headquarters will inform the 5th Battalion, 27th Artillery of the proper procedures to be used to acquire the desired real estate.
